

LX IN STEEL GRAY

#### Air Quality System (AQS)

As part of the automatic temperature control system in the LX, AQS monitors air quality and automatically switches into recirculation mode when a certain threshold of outside pollution is detected. Once the air clears, the system automatically returns to fresh-air mode.

#### HomeLink®

The electrochromic auto-dimming rearview mirror with compass features a HomeLink integrated transceiver. More than a convenient garage door opener, it can also be programmed to activate your home security, outdoor lighting systems, private gates and more.\* Standard on LX and available on GLS.

- REMOTE KEYLESS ENTRY WITH ANTI-THEFT SYSTEM
- DRIVER'S WINDOW AUTO UP/DOWN WITH PINCH PROTECTION
- SPACIOUS TRUNK WITH MULTI-LINK ARTICULATING HINGES

#### Hydraulic Engine Mounts

To further enhance your driving comfort, both the 4-cylinder and V6 engines feature hydraulic engine mounts, which significantly reduce engine vibration inside the cabin and maintain a smoother idle compared with competitors' conventional mounts.
