

THE THRILL OF DRIVING BEGINS BEFORE YOU EVEN TURN THE KEY.

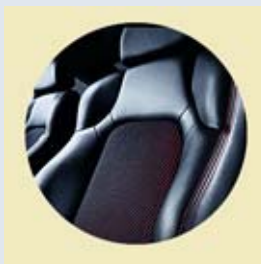

GT INTERIOR

**Power Switches**

Push-button convenience is at your fingertips with the Tiburon's standard power door locks and side mirrors. The power windows feature driver's auto-down and a lock-out button.

**Sport Seats**

The ultimate in comfort and racing-inspired style, the Tiburon SE and GT's front-bucket and rear seats boast black leather bolsters with red stitching and red sport-grip seat cloth.

**Premium Audio System**

We know music matters. So an Infinity® 440-watt stereo with 6-disc in-dash CD changer, sub-woofer and amplifier is available on the GT and comes standard on the GT Limited.

**Aluminum Foot Pedals**

The SE exclusively features aluminum foot pedals with black slip-resistant grips, adding to the Tiburon's already sporty statement. Now that's putting pedal to the metal.

There's no denying it. The inside of the Tiburon is simply a great place to be. A range of refined yet sporty features are available, including a high-performance, 440-watt sound system, leather-wrapped steering wheel and metalgrain interior trim. Plus, the GT Limited steps it up with a power sunroof and premium beige leather interior. So enjoy your Tiburon from the inside out.
