

SIX AIRBAGS COME STANDARD. BECAUSE SAFETY ISN'T A LUXURY.

GLS BEIGE INTERIOR

Front Seatbelt Pretensioners

Front seatbelt pretensioners tighten the shoulder belts during a frontal impact, helping reduce forward movement of the occupants. The force limiters help manage the belt's load across the torso.

The new Accent has the most standard safety features in its class, including six airbags¹ and a 4-wheel Anti-lock Braking System with Electronic Brake Force Distribution. The extensive list also includes front seatbelt pretensioners with force limiters, an energy-absorbing steering column and a rear LATCH child-seat attachment system. All standard. Because peace of mind shouldn't cost extra.

Anti-lock Braking System

The Accent features a standard 4-wheel Anti-lock Braking System with Electronic Brake Force Distribution, to help maintain steering control when braking hard in emergency situations.

Adjustable Head Restraints

It's easy to make all your passengers a little safer. Each head restraint adjusts almost effortlessly, improving your protection against whiplash in the event of a collision.
