

LIMITED IN BEIGE LEATHER

**Heated Seats**

Heated driver and front passenger seats make the Santa Fe Limited especially welcoming when the temperature drops. Push the button, and let that chilly feeling melt away.

**Automatic Temperature Control**

No matter how harsh the elements, you'll stay comfortable with Limited's automatic temperature control, which maintains optimal comfort and includes an outside temperature display.

**HomeLink®**

Standard on the GLS 3.5L and Limited models, an electrochromic auto-dimming rearview mirror features a built-in HomeLink transceiver, which allows you to control your garage door, home security systems and more.

**MONSOON® Audio System**

The Limited's premium MONSOON 218-watt audio system, with an in-dash 6-disc CD changer, external amplifier and six speakers, treats you to high fidelity and top-quality sound.

Because we believe that ruggedness and refinement are not mutually exclusive, you'll find the Santa Fe has a remarkably spacious, well-appointed interior. Its smart, ergonomic design puts everything at your fingertips, from power windows with driver's auto-down and a leather-wrapped steering wheel and shift knob to the premium audio system. So stretch out. Enjoy the ride. And arrive invigorated.
