

**Hyundai
Bluetooth® Phone
Compatibility**

Most Bluetooth® cellular phones should have Some functionality with the Hyundai Bluetooth® system. However, due to difference in phone quality, service providers and Bluetooth® chip programming, functionality may differ from one phone to another. For your convenience, here is a listing of mobile phones that have been tested with the Hyundai Bluetooth® system and their functionality. New mobile phones are introduced frequently – although your mobile phone may not be listed here, it may work with the Hyundai Bluetooth® system.

A: All iPhones cannot connect from phones, paired phone should be deleted, and pair again														
B: Phone issue: sometimes does not work														
C: Does not transfer back to phone														
D: It needs to set the discoverable mode on the phone for 3 minutes														
E: Phone issue: pressing hands free set will disconnect phone														
F: End call from 2nd far-end, no end message is sent to AVN, so still 2 calls activated														
G: Hang up first phone: H/U does not recognize that hang up action, and it is placed on hold. Then when you switch from line 1 to 2 and 2 to 1, all calls are transferred to phone2														
H: No terminated message from phone when terminate 1st call from 1st far-end														
I: Hang up active call, call does NOT go to second phone, you have to press switch, also switching back to hang up phone is available but no sound														
J: Only Phone works														
K: Only AVN/Audio works														
L: No end-call message from phone when end call from far-end														
M: Hang up action, and it's placed on hold. Then when you switch from line 1 to 2 and 2 to 1, all calls are transferred to phone2														
N: when end call from 1st far-end, no end message from phone, so still 2 call is on AVN. If end 2nd call from 2nd far-end after 1st call is ended, all call is ended.

**Hyundai
Bluetooth® Phone
Compatibility**

Most Bluetooth® cellular phones should have Some functionality with the Hyundai Bluetooth® system. However, due to difference in phone quality, service providers and Bluetooth® chip programming, functionality may differ from one phone to another. For your convenience, here is a listing of mobile phones that have been tested with the Hyundai Bluetooth® system and their functionality. New mobile phones are introduced frequently – although your mobile phone may not be listed here, it may work with the Hyundai Bluetooth® system.

- A: All iPhones cannot connect from phones, paired phone should be deleted, and pair again
- B: Phone issue: sometimes does not work
- C: Does not transfer back to phone
- D: It needs to set the discoverable mode on the phone for 3 minutes
- E: Phone issue: pressing hands free set will disconnect phone
- F: End call from 2nd far-end, no end message is sent to AVN, so still 2 calls activated
- G: Hang up first phone: H/U does not recognize that hang up action, and it is placed on hold. Then when you switch from line 1 to 2 and 2 to 1, all calls are transferred to phone2
- H: No terminated message from phone when terminate 1st call from 1st far-end
- I: Hang up active call, call does NOT go to second phone, you have to press switch, also switching back to hang up phone is available but no sound
- J: Only Phone works
- K: Only AVN/Audio works
- L: No end-call message from phone when end call from far-end
- M: Hang up action, and it's placed on hold. Then when you switch from line 1 to 2 and 2 to 1, all calls are transferred to phone2
- N: when end call from 1st far-end, no end message from phone, so still 2 call is on AVN. If end 2nd call from 2nd far-end after 1st call is ended, all call is ended.
