OWNER INFORMATION

To ensure your satisfaction and long term enjoyment of your new Hyundai vehicle, your selling dealer has inspected and conditioned your vehicle to Hyundai’s recommended inspection and pre-delivery procedure standards.

PERIODIC INSPECTION AND MAINTENANCE
Regular inspection and maintenance by skilled Hyundai technicians is the key to more efficient operation of the vehicle. This inspection and maintenance must be carried out in accordance with the recommendations given in your Hyundai Owner’s Manual.
HYUNDAI — AN OVERVIEW

Hyundai vehicles provide customers a high level of content and performance at an affordable price and demonstrate Hyundai’s emergence as an auto manufacturer whose products compete successfully in technology, quality, styling and refinement with automobiles from around the world.

Hyundai sold its first car, a subcompact model, in the U.S. in 1986. At the time, few Americans had ever heard of Hyundai or its products. Since that time, Hyundai has expanded and upgraded its product line in the U.S. and has gained valuable experience in the competitive U.S. automobile market. Hyundai now markets a full line of vehicles from subcompacts to luxurious sedans.

HYUNDAI MOTOR COMPANY

The Hyundai Group was founded in 1947 as Hyundai Engineering and Construction Co. by Ju-Yung Chung. Hyundai Motor Co., established in 1967, is the auto sales leader in the Korean domestic market and exports vehicles to 190 countries worldwide.

Hyundai Motor Co. (“HMC”) operates the world’s largest integrated automobile manufacturing facility in Ulsan, on Korea’s southeast coast. In 1996 Hyundai opened the Namyang Technology Research Center, one of eight research centers, which includes a complete testing facility with a 2.8-mile oval test track and a sophisticated aeroacoustic wind tunnel. That same year, HMC began production at its state-of-the-art Asan Plant, located southwest of Seoul.

A LOOK BACK – HYUNDAI’S ENTRY INTO THE U.S. MARKET

The timing of Hyundai’s entry into the U.S. market in 1986 was ideal. At that time most automobile manufacturers had abandoned the entry-level market in favor of high-end, high-priced vehicles and that left a large void in the market. First-time car buyers such as college students and young families were not able to find adequate, value-equipped cars that met their needs, yet were priced within their economic means.
SECTION 2

In February 1986, Hyundai launched its subcompact Excel model in the U.S. market. Customer response was immediate; in just seven months Hyundai Motor America had sold its 100,000th Excel. Total 1986 sales numbered 168,882 – an industry record for an import car distributor in its first year. Hyundai sales averaged 1,431 units per dealer, another sales record. In 1987 Hyundai sales continued to soar reaching a record 263,610 units.

What makes this sales performance all the more remarkable is that it was done with dealers located in only 31 of the 50 states. In the early years, Hyundai concentrated its sales efforts primarily on the west and east coasts, as well as in the southern states. In 1987 Hyundai expanded into the central portion of the United States, and today there are five regions and more than 780 Hyundai dealerships nationwide. Hyundai has sold more than 6 million vehicles in the United States since its entry in 1986.

EXPANDING THE PRODUCT LINE

Sonata
Hyundai took a major step toward becoming a full-line automotive importer/distributor in 1989 with the introduction of its midsize sedan, the Sonata. This roomy, powerful, front-wheel-drive sedan expanded Hyundai’s appeal to more mature, family-oriented buyers. It also offered Excel owners an opportunity to move up within the Hyundai product line. The Sonata was redesigned for the 2011 model. The new Sonata has a sophisticated design and the largest interior in its class.

Scoupe
Hyundai's third entry into the U.S. market was the sporty Scoupe, introduced as a 1991 model. The 1993-1995 Scoupe featured the Alpha engine – the first powerplant designed, engineered and manufactured exclusively by Hyundai.

Accent
In 1995, after 9 years in the U.S. market, the Excel was replaced by the all-new subcompact Accent. With the Accent, Hyundai offered customers high-tech sophistication and features, but still at an entry-level price. Today’s Accent is the fourth generation.

Elantra
The next member of the Hyundai family to be introduced was the compact Elantra sedan, which debuted as a 1992 model. It quickly became one of Hyundai best-selling models. The 5th generation Elantra was redesigned in 2011 and delivers design, safety, and up to 40 MPG highway. The Elantra Coupe and Elantra GT were added for 2013.
SECTION 2

Elantra Touring
The Elantra Touring was introduced in late 2009, delivering exceptional versatility and functionality in a sporty package for active families, while maintaining the exceptional value that is a hallmark of the Elantra name.

Tiburon
In 1997, Hyundai replaced the Scoupe with the exciting Tiburon sport coupe, with styling based on the HCD-II concept car introduced at the North American International Auto Show in Detroit in 1993. The Tiburon combines sleek, eye-catching styling with outstanding performance and handling.

Santa Fe
In the 2001 model year, Hyundai added the Santa Fe. The Santa Fe is a car-based crossover utility vehicle (XUT) that provides car-like ride and handling, with the seating position and utility of a sport utility vehicle.

XG Sedan
For the 2001 model year, Hyundai added the XG sedan. The XG sedan was Hyundai's new flagship vehicle in the U.S. - it was larger and more luxurious than the Sonata.

Azera
Hyundai replaced the XG sedan with the Azera starting with the 2006 model year. The Azera is a new definition of the premium sedan, with generous interior space. Azera was redesigned in 2012.

Entourage
In 2007, Hyundai introduced the Entourage. The Entourage was Hyundai's first van in the U.S. market.

Tucson
In 2005, Hyundai added the Tucson. The Tucson is an exciting crossover utility vehicle that is slightly smaller than the Santa Fe, while still providing the utility needed for life's daily adventures.

Veracruz
In 2007, Hyundai added the Veracruz. The Veracruz is a stylish mid-size SUV with standard 7-passenger seating, sleek styling, car-like ride and premium features.

Genesis
In the 2009 model year, Hyundai added the luxury sedan, Genesis. Genesis has an unprecedented combination of premium performance, technology, safety, and quality.

Genesis Coupe
The Genesis Coupe made its debut in 2010. Genesis Coupe is Hyundai's most dynamic performance car ever and the second consecutive all-new model introduction from Hyundai appealing directly to the car enthusiast.

Equus
In 2011, the Equus was added as Hyundai's flagship luxury sedan offering unsurpassed refinement while exceeding expectations with premium amenities and sophisticated design.
SECTION 2

HYUNDAI FACILITIES

As the presence of Hyundai automobiles and Hyundai Motor America continued to grow in America, the company expanded its operations and service networks nationwide to more effectively serve the needs of dealers and customers.

Today, Hyundai has regional offices in Jamesburg, NJ, Marietta, GA, Aurora, IL, Fountain Valley, CA, and Coppell, TX and maintains parts distribution facilities in Ontario, CA, Aurora, IL, Lawrenceville, GA and Jamesburg, NJ. Hyundai port facilities are located in Port Hueneme, CA, Brunswick, GA, Portland, OR, Fort Worth, TX, and Philadelphia, PA. In 2005, Hyundai opened its first U.S. plant in Montgomery, Alabama. This plant features state of the art manufacturing facilities.

After many years in the U.S. automobile market, Hyundai continues to reinforce its commitment to sell innovative, high-quality vehicles at the most affordable prices.

Sonata Hybrid

In the 2011 model year, Hyundai introduced the Sonata Hybrid. The Sonata Hybrid offers significant visual differentiation from non-hybrid Sonata models while retaining the sleek, modern styling elements of Hyundai's Fluidic Sculpture design aesthetic. The Sonata Hybrid's unique approach to hybrid powertrain design and battery technology sets it apart from the mid-size hybrid pack.

Veloster

For the 2012 model year, Hyundai added its cutting-edge Veloster three-door coupe. The Veloster delivers innovation to the compact coupe segment with unique styling, Hyundai's Blue Link Telematics System, Pandora internet radio, and Hyundai's first Ecoshift™ dual clutch transmission.

SECTION 8

FEDERAL EMISSION CONTROL WARRANTY STATEMENT

In accordance with the Federal Clean Air Act, as amended, Hyundai Motor America (HMA) warrants to the original and each subsequent owner of each new 2013 Hyundai vehicle that the vehicle: (1) was designed, built and equipped to conform at the time of sale to applicable federal regulations and (2) is free from defects in material and workmanship at the time of sale which would cause the vehicle to fail to conform with such regulations for a period of 5 years from the date of original retail delivery or date of first use or 60,000 miles, whichever occurs first, or up to first required scheduled maintenance, whichever occurs first. Additionally, certain major emissions control components listed under the following “8 Years/80,000 Mile Emission Warranty Parts List” will be covered for a period of 8 years from the date of original retail delivery or date of first use, or 80,000 miles, whichever occurs first. Any part of this vehicle covered under this warranty which proves to be defective will be repaired or replaced by any Certified Equus Dealer using new or remanufactured Hyundai Genuine Parts. This warranty coverage applies to the vehicle regardless of a change in ownership and is transferable to subsequent owners. Failures, other than those resulting from defects in material or workmanship, which arise solely as a result of owner abuse and/or lack of proper maintenance, are not covered by the warranty. INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

WARRANTY JURISDICTION

This warranty applies to vehicles manufactured to either Federal specifications or California specifications which are distributed by Hyundai Motor America and registered and normally operated in the 50 United States and Washington, D.C.

WHAT IS COVERED

The primary components covered are listed on the following “5 Year/60,000 Mile Emission Warranty Parts List” and “8 Year/80,000 Mile Emission Warranty Parts List”.

Some items require scheduled replacement as part of the scheduled maintenance of the vehicles. Replacement of these items is warranted in normal service up to the first replacement interval or up to the limits of the applicable emission warranty coverage period, whichever occurs first. (Refer to your Owner’s Manual and its Scheduled Maintenance Section)
SECTION 9 EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

WARRANTY JURISDICTION
This warranty applies to vehicles manufactured to either Federal specifications or California specifications which are distributed by Hyundai Motor America and registered and normally operated in the 50 United States and Washington, D.C.

INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

WHAT IS COVERED
Some states and local jurisdictions have established periodic vehicle inspection and maintenance (I/M) programs to encourage proper maintenance of your vehicle. If an I/M program in your area has U.S. Environmental Protection Agency (EPA) approval, you may be eligible for HMA’s performance warranty coverage under the following conditions:

1. The vehicle has been maintained and operated in accordance with the scheduled maintenance instructions described in the Owner’s Manual provided with your vehicle.
2. The vehicle fails to conform during the warranty period to the applicable emission standards as determined by an emissions test approved by the Environmental Protection Agency (EPA).
3. The failure to conform results, or will result, in the owner of the vehicle having to bear a penalty or other sanctions, such as denial of the right to operate or use the vehicle or a fine under local, state or federal law.

If all of the above conditions are met, HMA warrants that any Certified Equus Dealer will replace, repair or adjust to Hyundai’s specifications, at “NO CHARGE”, any of the components listed on the following Emission Warranty Parts-Federal Vehicle chart, which may be necessary to cause your vehicle to conform to the applicable federal emission standards.
SECTION 9

EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

WARRANTY PERIOD
This warranty is effective for 5 years from the date of original retail delivery or if the vehicle is first placed in service as a “demonstrator” or “Company” car prior to delivery, on the date it is first placed in service, or 60,000 miles, whichever occurs first, or up to the first required scheduled maintenance, whichever occurs first. Additionally, certain major emission control components listed under the following “8 Year/80,000 Mile Emission Warranty Parts List” will be covered for a period of 8 years from the date of original retail delivery or date of first use, or 80,000 miles, whichever occurs first. This warranty coverage applies to the vehicle regardless of a change in ownership and is transferable to subsequent owners.

Note:
Federal Emission Warranty
The Federal government requires minimum emission warranty coverage for the first 2 years or 24,000 miles of vehicle use, with coverage for the first 8 years or 80,000 miles for catalytic converters, the electronic engine control module, and the onboard emissions diagnostic device.

Hyundai provides greater warranty coverage of 5 years or 60,000 miles for all emission related components and provides 8 years or 80,000 miles coverage on the specific components noted.

EMISSION WARRANTY PARTS LIST
Some items require scheduled replacement and are warranted up to the first replacement interval or up to the limits of the applicable emission warranty coverage period, whichever occurs first. (Refer to the Scheduled Maintenance section in your Owner’s Manual). The following is a listing of Emission Parts covered under the emission warranties. For more details about the specific parts that are covered by the Emission Defect Warranty, contact your Certified Equus Dealer. If failure of one of the following components results in failure of any other vehicle part, both parts will be covered by the Emission Performance Warranty.

WHAT IS NOT COVERED BY THESE EMISSION WARRANTIES

THE EMISSION DEFECT WARRANTY AND THE EMISSION PERFORMANCE WARRANTY SHALL NOT APPLY TO:

- Normal maintenance service (such as filters)
- Malfunctions in any part directly caused by misuse, modification, improper adjustment, alteration, tampering, disconnection, improper or inadequate maintenance, or use of leaded gasoline or contaminated fuel.
- Damage resulting from an accident or an Act of God.
- Any vehicle on which the odometer reading has been altered so that mileage cannot be readily determined.
- Failures that are a direct result of a lack of performance of required emission control maintenance as outlined in your Owner’s Manual.
- Parts or accessories used in applications for which they were not designed or not approved by HMA.
- Parts not supplied by HMA or damage to other parts caused directly by using non-Hyundai parts, non-EPA certified replacement parts in the maintenance or repair of the vehicle which ultimately prove to be defective in material or workmanship, or not equivalent from an emission control standpoint to the original equipment part.

- INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

The duration of any implied warranties, including those of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE regarding emission systems defects are limited to the duration of these emission system warranties. Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions set forth regarding these warranties may not apply to you.

OWNER’S RESPONSIBILITY

It is the owner’s obligation to properly maintain and use the vehicle in accordance with Hyundai’s written instructions in your Owner’s Manual. Failures caused by inadequate or improper maintenance are not covered by the warranty. To help resolve questions as to whether the proper vehicle maintenance has been performed, HMA urges that the owner retain all maintenance service records and receipts indicating that service has been performed on the vehicle.
SECTION 9

EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

REPLACEMENT PARTS

It is recommended that any replacement parts used for maintenance or for the repair of emission control systems be new or remanufactured Hyundai Genuine Parts. THE WARRANTY OBLIGATIONS ARE NOT DEPENDENT UPON THE USE OF ANY PARTICULAR BRAND OF REPLACEMENT PARTS. THE OWNER MAY ELECT TO USE NON-GENUINE HYUNDAI PARTS FOR REPLACEMENT PURPOSES. THE USE OF REPLACEMENT PARTS WHICH ARE NOT EQUIVALENT MAY IMPAIR THE EFFECTIVENESS OF THE EMISSION CONTROL SYSTEM.

If other than Hyundai Genuine Parts are used for maintenance replacements or for the repair of components affecting emission control, the owner should determine that such parts are warranted by their manufacturer to be equivalent to Hyundai Genuine Parts in performance and durability.

“New or Remanufactured Hyundai Genuine Parts” when used in connection with Hyundai vehicles, means parts manufactured by or approved by Hyundai, designed for use on Hyundai vehicles and distributed by HMA.

MAINTENANCE SERVICE

MAINTENANCE, REPLACEMENT OR REPAIR OF THE EMISSION CONTROL DEVICES AND SYSTEMS MAY BE PERFORMED BY ANY QUALIFIED AUTOMOTIVE REPAIR ESTABLISHMENT OR INDIVIDUAL USING ANY PART CERTIFIED PURSUANT TO APPLICABLE EMISSION REGULATIONS: HOWEVER, WARRANTY SERVICE MUST BE PERFORMED BY CERTIFIED EQUUS DEALER.

Claims under the Emission Performance Warranty may not be denied due to the failure of a properly installed certified non-Hyundai Genuine Part. Claims may be denied on the basis of an uncertified replacement part used in the maintenance or repair of a vehicle if Hyundai presents evidence that the uncertified replacement part is either defective in materials or workmanship or not equivalent from an emission standpoint to the original equipment part and the vehicle owner is unable to rebut the evidence.
Receipts covering the performance of maintenance service should be retained in the event questions arise concerning maintenance. These receipts should be transferred to each subsequent owner of this vehicle. HMA reserves the right to deny warranty coverage if the vehicle has not been properly maintained. However, denial will not be based solely on the absence of maintenance records.

These warranties apply only to vehicles manufactured to United States specifications which are distributed by Hyundai Motor America and registered and normally operated in the 50 United States and Washington D.C., the commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa, and includes the commonwealth of the Northern Mariana Islands. Vehicles manufactured to other than United States specifications, distributed by other than HMA and registered and normally operated outside the 50 United States and Washington D.C., the commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa, or the Commonwealth of the Northern Mariana Islands are entitled to service of the emission control systems on the basis of the warranty applicable to such other distribution country.

CLAIMS PROCEDURE

To obtain warranty service under these warranties, the owner should return the vehicle to a Certified Equus Dealer’s place of business during its normal service business hours, where such service will be performed at no charge for parts, labor, diagnosis and tax.

If an owner’s warranty claim under the 2013 Emission Performance Warranty is denied, HMA will provide the owner with a written explanation of why the claim was denied 1) within 30 days from the time you bring the car to a Certified Equus Dealer, or 2) within the time required by local, state, or federal law for the vehicle to be repaired without incurring further penalty, whichever is shorter.

Failure to provide an explanation within the 30-day period shall obligate HMA to remedy the nonconformity under the Emission Performance Warranty except:

- When delay is requested by the vehicle owner.
- When delay is caused by factors beyond the control of HMA or Certified Equus Dealers.
SECTION 9  EMISSION PERFORMANCE WARRANTY - FEDERAL VEHICLE

If your Certified Equus Dealer cannot repair your vehicle or process your claim within a reasonable time, please contact your Hyundai Customer Connect Center for assistance.

SECTION 10

EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE

CALIFORNIA EMISSION CONTROL WARRANTY STATEMENT

YOUR WARRANTY RIGHTS AND OBLIGATIONS

The California Air Resources Board and Hyundai Motor America (HMA) are pleased to explain the Emission Control System Warranty on your 2013 Hyundai vehicle certified for sale in California.

In California, new motor vehicles must be designed, built and equipped to meet the State’s stringent anti-smog standards. HMA must warrant the emission control system on your Hyundai vehicle for the periods of time listed below, provided there has been no abuse, neglect or improper maintenance of your Hyundai vehicle.

Your emission control system includes parts such as the fuel injection system, ignition system, catalytic converter, and engine computer. Also included may be hoses, belts, connectors and other emission-related assemblies. Where a warrantable condition exists, HMA will repair your Hyundai vehicle at no cost to you including diagnosis, parts and labor.

MANUFACTURER’S WARRANTY COVERAGE:

1. For 5 years or 60,000 miles (whichever occurs first):
   - If your Hyundai vehicle fails a Smog Check inspection, all necessary diagnosis, repairs and adjustments will be made by HMA to ensure that your vehicle passes the inspection. This is your Emission Control System PERFORMANCE WARRANTY.
   - If any emission-related part on your vehicle is defective, the part will be repaired or replaced by HMA. This is your short-term Emission Control System DEFECT WARRANTY.

2. Long-term Emission Control System DEFECT WARRANTY
   If an emission-related part listed in this Owner's Handbook on the Warranty Parts List specifically noted with coverage for "7 years or 70,000 miles" or "8 years or 80,000 miles" is defective, the part will be repaired or replaced by HMA. This is your long-term Emission Control System DEFECT WARRANTY.
   - Specific emission components are covered for 7 years or 70,000 miles, whichever occurs first, see Page 37, NOTE1.
   - Specific emission components are covered for 8 years or 80,000 miles, whichever occurs first, see Page 37, NOTE2.
SECTION 10  EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE

OWNER’S WARRANTY RESPONSIBILITIES
As the Hyundai vehicle owner, you are responsible for the performance of the required maintenance listed in your Owner’s Manual. HMA recommends that you retain all receipts covering maintenance on your Hyundai vehicle, but HMA cannot deny emission warranty coverage solely for the lack of receipts or for your failure to ensure the performance of all scheduled maintenance.

You are responsible for returning your Hyundai vehicle to a Certified Equus Dealer as soon as a problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days.

As the Hyundai vehicle owner, you should also be aware that HMA may deny your warranty coverage if your Hyundai vehicle or a part has failed due to abuse, neglect, improper maintenance or unapproved modifications.

If you have any questions regarding your warranty rights and responsibilities, you should contact Hyundai Customer Connect Center at 877-EQUUS-27 (877-378-8727) or the California Air Resources Board at 9528 Telstar Avenue, El Monte CA 91731.

INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

Specific emission parts are covered up to 5 years or 60,000 miles, whichever occurs first, or up to the first required scheduled maintenance, whichever occurs first, See Page 37, NOTE3.

WARRANTY JURISDICTION
This warranty applies exclusively to vehicles manufactured to California specifications which are distributed by Hyundai Motor America and registered in the states of California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, Oregon, Pennsylvania, Rhode Island, Vermont or Washington. Its coverage exists in addition to that of the Emission Defect Warranty-Federal Vehicle and the Emission Performance Warranty-Federal Vehicle.
SECTION 10 EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE

SPECIAL NOTE: According to Federal Regulations, your vehicle may also be eligible for additional warranty coverage under the Federal Emission Warranty. California requires minimum emission warranty coverage of the first 3 years or 50,000 miles of vehicle use, with coverage for the first 7 years or 70,000 miles for certain "high cost" emission related parts, determined by a California government specified formula.

Hyundai provides greater warranty coverage of 5 years or 60,000 miles for all emission related components and 8 years or 80,000 miles coverage for catalytic converters, the electronic engine control module, and the onboard emissions diagnostic device.

WARRANTY PARTS LIST
The 5 year/60,000 mile Emission Control System Defect Warranty covers any part that can affect emissions. Some of these consist of the following parts:
Spark plugs shall be warranted for the emissions warranty period, or the first scheduled replacement time or mileage, whichever occurs first.

**NOTE1**: Parts designated by "7/70" are warranted for 7 years or 70,000 miles, whichever occurs first.

**NOTE2**: Parts designated by "8/80" are warranted for 8 years or 80,000 miles, whichever occurs first.

**NOTE3**: Specific emission parts covered up to 5 years or 60,000 miles, whichever occurs first, or up to the first required scheduled maintenance, whichever occurs first (See Owner's Manual for required scheduled maintenance).
SECTION 10

EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE

Some items are scheduled for replacement as part of the required maintenance for the vehicle. Replacement of these items is warranted up to the first replacement interval or up to the limits of the applicable Emission Warranty coverage period, whichever occurs first (Refer to the Scheduled Maintenance chart in your Owner's Manual). Any such part repaired or replaced under warranty shall be warranted for the remainder of the warranty period for that part.

If the failure of a warranted component causes damage to any other vehicle part, both parts will be covered by the Emission Warranties.

WHAT IS NOT COVERED

THE EMISSION CONTROL SYSTEM DEFECTS WARRANTY AND THE EMISSION CONTROL SYSTEM PERFORMANCE WARRANTY SHALL NOT APPLY TO:

- Malfunctions in any part directly caused by abuse, misuse, modification, improper adjustment except those done by a dealership during warranty service work, alterations, tampering, disconnections, improper or inadequate maintenance, neglect or use of leaded gasoline or other fuels not recommended in the Owner's Manual.
- Damage resulting from an accident or an Act of God.
- Any vehicle on which the odometer reading has been altered so that actual mileage cannot be readily determined.
- Failures that are a direct result of a lack of performance of required emission control maintenance as outlined in your Owner's Manual.
- Parts or accessories used in applications for which they were not designed or not approved for use on the vehicle by HMA.
- Parts not supplied by HMA or damage to other parts caused directly by non-Hyundai parts or non-equivalent parts.
- The charge for diagnostic labor which does not lead to the determination that a warrantable condition exists.
SECTION 10  EMission control systems warranty - California vehicle

* INCIDENTAL OR CONSEQUENTIAL DAMAGES, SUCH AS, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

* The duration of any implied warranties, including those of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE, regarding emissions systems defects are limited to the duration of this limited warranty.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage, so the limitations or exclusions set forth regarding this limited warranty may not apply to you.

Replacement Parts
It is recommended that any replacement parts used for maintenance, repair or replacement of the emission control system be parts supplied by HMA.

Maintenance, repair or replacement of the emission control system may be performed by any qualified automotive repair facility or individual, using parts other than Hyundai Genuine Parts without invalidating this warranty.

However, the cost of such maintenance and parts will not be covered under this warranty unless it is an “Emergency Repair” situation. (Refer to “Emergency Repair” for definition of emergency repair situation)

Use of replacement parts which are not equivalent in quality to Hyundai Genuine Parts may impair the effectiveness of the emission control system. You should make sure such parts are warranted by their manufacturer to be equivalent in design and quality to Hyundai supplied parts. HMA assumes no liability under this warranty for any vehicle damage caused by a defect in any such parts.

Obtaining Warranty Service
To obtain warranty service, you must return your Hyundai vehicle to any Certified Equus Dealer in California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, Oregon, Pennsylvania, Rhode Island, Vermont or Washington during its normal service business hours, where such service will be performed.

When failing a Smog Check test, a Certified Equus Dealer may ask the owner to provide proof that the required maintenance was performed when the dealer has reason to believe that the required maintenance;
SECTION 10

EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE

- Was not performed and
- If not performed, may be the cause for the particular vehicle exceeding applicable emission standards.

For a Smog check test failure, if your Warranty Claim under the 2013 Emission Control Systems Limited Warranties is denied, HMA or its dealer will provide you with a written explanation of why the claim was denied within 30 days from the time you bring the car to a Certified Equus Dealer.

If the Certified Equus Dealer does not notify the vehicle owner within 30 days that a warrantable condition does not exist, then HMA will repair the vehicle free of charge, unless:

- The delay is requested by you, the Hyundai vehicle owner.
- The delay is caused by factors beyond the control of HMA or a Certified Equus Dealer.

The lack of availability of warranted parts within 30 days shall constitute an emergency situation (see EMERGENCY REPAIR).

EMERGENCY REPAIR

In an emergency, where a Certified Equus Dealer is not reasonably available, warranty repairs may be made at any available service facility, or by the owner using any replacement part. A repair not being completed within 30 days also constitutes an emergency.

HMA will reimburse you for your expenses including diagnostic charges, for repairs covered by this warranty, for parts at HMA’s suggested retail price, and for labor at a geographically appropriate labor rate per HMA’s recommended time allowance. For reimbursement, present all replaced parts and a copy of your paid receipt to any Certified Equus Dealer. HMA assumes no liability for the workmanship of the repair facility.

CALIFORNIA VEHICLE INSPECTION PROGRAM

If your 2013 Hyundai vehicle fails to pass a Smog Check test after a period of use of 5 years or 60,000 miles, but before a period of use of 8 years or 80,000 miles, whichever occurs first, you may choose to have your vehicle repaired at a Certified Equus Dealer or another service facility.
SECTION 10  
EMISSION CONTROL SYSTEMS WARRANTY - CALIFORNIA VEHICLE

In the event that the Certified Equus Dealer determines that the smog check failure was caused by the failure or malfunction of a part listed in this Owner’s Handbook specially noted with coverage for 8 years or 80,000 miles, then your Hyundai vehicle will be repaired under this limited warranty at no expense to you, unless the part failure or malfunction was caused by abuse, neglect, or improper maintenance. However, if the Certified Equus Dealer determines that the smog check failure was directly caused by abuse, neglect, or improper maintenance, then you will be responsible for all diagnostic and repair costs related to detecting and repairing your Hyundai vehicle so it will pass the Smog Check test. If you choose to have your Hyundai vehicle repaired at a service facility other than a Certified Equus Dealer, HMA will not be liable for any diagnostic and repair expenses, except where such repair is necessary by reason of an emergency.

If your Hyundai vehicle is determined to fail the Smog Check test by such service facility, you may deliver your Hyundai vehicle to a Certified Equus Dealer and have it repaired free of charge in accordance with this warranty.

OBTAINING WARRANTY SERVICE

In the event of a Claim, you must return your vehicle to a Certified Equus Dealer for examination and approval by Hyundai prior to any repair or replacement. Warranty service will be provided by Certified Equus Dealers without charge for parts or labor.
SECTION 11  REPLACEMENT PARTS AND ACCESSORIES LIMITED WARRANTY

WHAT IS COVERED

Warranty coverage is for repair or replacement of any Hyundai Genuine Replacement Part or Accessory supplied from Hyundai Motor America which is found to be defective in material or workmanship under normal use and maintenance, except any item specifically referred to in the section “What is Not Covered”.

Repairs are to be performed using New Hyundai Genuine Parts or Hyundai authorized remanufactured parts.

Parts/Accessories that were sold and installed by a Certified Equus Dealer will be repaired or replaced without charge for parts/accessories and labor. If the parts/accessories were not originally installed by a Certified Equus Dealer, they will be repaired or replaced without charge for parts/accessories, but labor charges will not be covered. INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE, OR COMMERCIAL LOSS ARE NOT COVERED UNDER THIS WARRANTY.

REPLACEMENT PART WARRANTY PERIOD

The Replacement Parts Limited Warranty period is limited to 1 year from the date of installation, or twelve thousand (12,000) miles of service, whichever occurs first, for Hyundai Genuine replacement parts supplied by HMA and purchased from and installed by a Certified Equus Dealer. Parts replaced under the terms of the New Vehicle Limited Warranty, Powertrain Limited Warranty, Emission Defect Warranty, Emission Performance Warranty, or California Emission Control Systems Warranty, are warranted for the remainder of the applicable warranty which the part was previously replaced under.

Certain Emission Control System items require scheduled replacement as part of the scheduled maintenance of the vehicle (i.e. spark plugs). Replacement of these items is warranted in normal service up to the first replacement interval only. (Refer to your Owner’s Manual and its scheduled maintenance section). Genuine Hyundai Parts and Accessories supplied by HMA and purchased from a Certified Equus Dealer, but not installed by Certified Equus Dealer, are covered for twelve (12) months from the date of purchase from the Certified Equus Dealer.
SECTION 11 REPLACEMENT PARTS AND ACCESSORIES LIMITED WARRANTY

ACCESSORY WARRANTY PERIOD

An accessory purchased over-the-counter is warranted for 1 year/unlimited mileage.

An air conditioning system installed by a Certified Equus Dealer is covered for 1 year or twelve thousand (12,000) miles, whichever occurs first, or the remainder of the New Vehicle Limited Warranty, whichever is greater, from the date of installation. An AM/FM radio, cassette player, CD/DVD player, air conditioning system, bluetooth or navigational system purchased over the counter is warranted for 1 year/unlimited mileage. AM/FM radio, cassette player, CD/DVD player, navigational system, and bluetooth are covered for 1 year/unlimited mileage if purchased and installed after the vehicle has been retailed or placed into service.

* The duration of any implied warranties, including those of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE, are limited to the duration of this limited warranty.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitations of incidental or consequential damages, so the limitation or exclusions set forth regarding this limited warranty may not apply to the owner.

NOTE:
Vehicles which contain non-Hyundai Genuine parts, or which have been misused, or improperly maintained, will not have the coverage under the Replacement Parts and Accessories Limited Warranty denied, unless the non-Hyundai Genuine part, the misuse, or the improper maintenance directly caused or contributed to the subsequent problem.
